

PRINCE BAVISHI

Full-Stack Developer

+91 9016091157 | bavishprince90@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer comfortable across both the MERN (MongoDB, Express.js, React, Node.js) and MEAN (MongoDB, Express.js, Angular, Node.js) stacks, with 1+ year of professional experience building production Angular applications and hands-on backend work in Node.js/Express. Owns features end-to-end — designing REST APIs, building backend services, and shipping responsive, performant frontends. Experienced with MySQL, PostgreSQL, Supabase, Docker, AWS, and Azure, with a track record of resolving production issues and improving application performance by up to 40%.

TECHNICAL SKILLS

Languages & Core: JavaScript, TypeScript, SQL, HTML5, CSS3, SCSS, OOP, Data Structures, Problem Solving, Debugging

Frontend: React.js, Angular (14–18), Angular Material, RxJS, Tailwind CSS, Bootstrap 5, Responsive Web Design

Backend & Database: Node.js, Express.js, RESTful API Design & Development, MongoDB, MySQL, PostgreSQL, Supabase

Cloud, DevOps & Tools: AWS, Azure, Docker, Git, GitHub, Postman, VS Code, npm, System Design (HLD/LLD), Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer | Softrefine Technology Pvt. Ltd.

May 2025 – Present

- Developed and maintained enterprise-grade web applications using Angular, TypeScript, JavaScript, HTML5, and SCSS, integrating 20+ RESTful APIs into a production SaaS platform (MEAN-aligned stack).
- Improved Offer Module performance by ~40% by eliminating redundant API requests and optimizing frontend data flow, following Agile development practices and Git workflows.
- Implemented offer-creation workflows using RxJS (forkJoin, switchMap) to eliminate race conditions, and resolved 10+ high-priority production defects, improving stability and user experience.

Full-Stack Developer Intern (MERN) | Real Estate Platform Project

3–4 Month Internship

React, Node.js, Express.js, MongoDB, Tailwind CSS

- Contributed to a real estate platform supporting user, seller, agent, and admin roles, working across the full MERN stack.
- Designed and implemented REST APIs with Node.js and Express.js, and built corresponding React UI to consume them, while identifying and fixing bugs across both layers.

KEY PROJECT

OutreachPro — B2B Outreach & Email Automation Platform | Personal Full-Stack Project

GitHub

Angular 18+, TypeScript, Node.js, Express.js, Supabase (PostgreSQL), RxJS, Signals, SSE, Nodemailer

- Designed and built a full-stack B2B outreach platform for managing business contacts and automated, personalized email campaigns, with Supabase (PostgreSQL) as the backing store.
- Built a scalable business-contact directory with advanced filtering, pagination, bulk operations, and CSV import/export for efficient prospect management.
- Engineered a custom bulk-email engine using Node.js and Nodemailer with rate limiting and Server-Sent Events (SSE) for real-time campaign progress tracking.
- Created a multi-step email campaign wizard with dynamic variable injection, connecting a Signals/RxJS-driven frontend to the Node.js/Express backend.

EDUCATION

Master of Computer Applications (MCA)

2025 – 2027

Dr. Babasaheb Ambedkar Open University

Bachelor of Computer Applications (BCA)

2022 – 2025

Kamani Science College & Prataprai Arts College, Saurashtra University
