PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building production SaaS applications using TypeScript, React, Angular, Node.js, Express.js and PostgreSQL/MongoDB. Experienced in REST API design and integration, JWT authentication, role-based access control, debugging and testing, and shipping features in Agile/Scrum teams on Azure DevOps. Built three independent full-stack products, including a B2B lead outreach CRM with an integrated AI writing assistant.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3, SCSS
- **Frontend:** React.js, Angular, Redux, RxJS, Signals, Angular Material, PrimeNG, Tailwind CSS, Bootstrap 5
- **Backend:** Node.js, Express.js, NestJS, REST APIs, JWT Authentication, Role-Based Access Control (RBAC)
- **Databases:** PostgreSQL, MongoDB, MySQL, Supabase
- **Cloud & DevOps:** Azure, Azure DevOps, AWS, Docker, Git, GitHub, CI/CD
- **Testing & Tools:** Postman, API Testing, Functional Testing, Debugging, VS Code, Agile/Scrum
- **AI-Assisted Development:** ChatGPT, Claude, Cursor, Perplexity

PROFESSIONAL EXPERIENCE

SoftRefine Technology Pvt. Ltd. **May 2025 – Sep 2026**

Software Developer | Product: Talent Recruit, AI-Powered Recruitment / ATS Platform

- Developed and enhanced production features for an enterprise recruitment/ATS SaaS platform using Angular, TypeScript, RxJS, HTML5 and SCSS.
- Integrated REST APIs with Angular frontends and built reusable shared services and components to keep business logic consistent across modules.
- Implemented recruitment workflow features and third-party platform integrations within an established enterprise architecture.
- Debugged and resolved QA and production defects using browser dev tools and Postman API testing, improving reliability of assigned modules.
- Planned, developed, tested and delivered features in Agile/Scrum sprints through Azure DevOps, collaborating with QA, product and backend teams.

PROJECTS

AI-Powered B2B Lead Management & Outreach SaaS | *Angular, TypeScript, Node.js, Express.js, PostgreSQL, Supabase*

- Built an end-to-end outreach CRM to process, filter and manage 4,000+ regional leads across multiple industries, with campaign and lead-tracking workflows.
- Integrated an AI writing assistant into email composition for personalized outreach, with adjustable tone and English/Gujarati multilingual support.

AI Factory OS – Manufacturing & Distribution Management Platform | *Angular, Node.js, Express.js, PostgreSQL, PrimeNG, RxJS, Signals*

- Designed and built a full-stack operations platform covering CRM, quotations, sales orders, inventory, procurement, production and dispatch.
- Architected connected flows (Quotation, Sales Order, Inventory Analysis, Purchase/Production, Dispatch) with role-based access and module-level permissions.

Talent Recruit – AI-Powered Recruitment / ATS Platform (SoftRefine) | *Angular, TypeScript, RxJS, REST APIs, Azure DevOps*

- Enterprise SaaS product: contributed recruitment workflow features and third-party platform integrations across multiple modules.
- Built reusable shared services and components integrated with REST APIs to keep business logic consistent across the application.

Online Real Estate Service Provider – Real Estate Management Platform | *MongoDB, Express.js, React.js, Node.js, Tailwind CSS*

- Developed role-based workflows for customers, sellers, agents and admins covering property listing and management.
- Built responsive React interfaces and RESTful APIs with Node.js/Express.js backed by MongoDB; debugged data-flow issues and performed functional testing across frontend and backend.

EDUCATION

Master of Computer Applications (MCA) | Dr. Babasaheb Ambedkar Open University **2025 – 2027 (Pursuing)**

Bachelor of Computer Applications (BCA) | Saurashtra University **2022 – 2025 | CGPA: 8.36**
