PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of experience building and shipping production SaaS applications, including an LLM-powered AI writing assistant with adjustable tone and English/Gujarati multilingual support. Strong in REST API design and third-party integration, CRM-style workflows, role-based access control, and debugging and testing against real user flows. Experienced collaborating with product, QA and backend teams in Agile/Scrum sprints. Looking to build, launch and run AI assistants for enterprise customers.

CORE SKILLS

AI & LLM: LLM Integration, AI Assistants, Prompt Engineering, AI-Powered Features, Multilingual Content (English/Gujarati), AI-Assisted Development (ChatGPT, Claude, Cursor, Perplexity)

Integration & APIs: REST API Design and Integration, Third-Party Integrations, CRM Workflows, JWT Authentication, Role-Based Access Control (RBAC), Postman, API Testing

Languages: JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3, SCSS

Backend: Node.js, Express.js, NestJS

Frontend: Angular, RxJS, Signals, Angular Material, PrimeNG, React.js, Redux, Tailwind CSS, Bootstrap 5

Databases: PostgreSQL, MongoDB, MySQL, Supabase

Cloud, DevOps & Process: Azure, Azure DevOps, AWS, Docker, Git, GitHub, CI/CD, Agile/Scrum, Functional Testing, Debugging

PROFESSIONAL EXPERIENCE

Software Developer | SoftRefine Technology Pvt. Ltd. **May 2025 – Sep 2026**

Product: Talent Recruit, AI-Powered Recruitment / ATS Platform (Angular, TypeScript, REST APIs, Azure DevOps)

- Built and enhanced production features for an enterprise recruitment/ATS SaaS platform used by business teams, using Angular, TypeScript, RxJS and SCSS.
- Integrated REST APIs and third-party platforms into recruitment workflows (jobs, candidates, offers), and built reusable shared services to keep business logic consistent across modules.
- Debugged and resolved QA and production defects using browser dev tools and Postman API testing, improving reliability of assigned modules.
- Planned, developed, tested and delivered features in Agile/Scrum sprints via Azure DevOps, working with QA, product and backend teams.

PROJECTS

AI-Powered B2B Lead Management & Outreach SaaS | *Angular, TypeScript, Node.js, Express.js, PostgreSQL, Supabase*

- Built an end-to-end outreach CRM to process, filter and manage 4,000+ regional leads across multiple industries, with campaign and lead-tracking workflows.
- Integrated an LLM-based AI writing assistant into email composition for personalized outreach, with adjustable tone and English/Gujarati multilingual support.

AI Factory OS | *Manufacturing & Distribution Management Platform* | *Angular, Node.js, Express.js, PostgreSQL, PrimeNG, RxJS, Signals*

- Designed and built a full-stack operations platform covering CRM, quotations, sales orders, inventory, procurement, production and dispatch.
- Architected connected business flows (Quotation, Sales Order, Inventory Analysis, Purchase/Production, Dispatch) with role-based access and module-level permissions.

Online Real Estate Service Provider | *Real Estate Management Platform* | *MongoDB, Express.js, React.js, Node.js, Tailwind CSS*

- Developed role-based workflows for customers, sellers, agents and admins covering property listing and management.
- Built responsive React interfaces and RESTful APIs with Node.js/Express.js on MongoDB; debugged data-flow issues and performed functional testing across frontend and backend.

EDUCATION

Master of Computer Applications (MCA) | Dr. Babasaheb Ambedkar Open University **2025 – 2027 (Pursuing)**

Bachelor of Computer Applications (BCA) | Saurashtra University | CGPA: 8.36 **2022 – 2025**
