

Prince Bavishi

+91 9016091157 | Rajkot, Gujarat | bavishiprince90@gmail.com | [Portfolio](#) | [LinkedIn](#)

- Software Engineer with 1 year of experience developing enterprise web applications using Angular, TypeScript, JavaScript, HTML5, and SCSS. Experienced in building responsive user interfaces, integrating RESTful APIs, optimizing application performance, and resolving production issues.

SKILLS

Languages & Core Concepts	Core Java, JavaScript, TypeScript, SQL, HTML5, CSS3, SCSS, Object-Oriented Programming (OOP), Data Structures, Problem Solving, Debugging
Frontend Development	Angular, React.js, Angular Material, Bootstrap 5, Tailwind CSS, RxJS, Responsive Web Design
Backend Development	Node.js, Express.js, REST API Development, PostgreSQL, MySQL, MongoDB
Tools & Workflow	Git, GitHub, Azure Boards, Docker, System Design (HLD LLD), Postman, VS Code, npm, Angular CLI, Agile/Scrum

EXPERIENCE

Software Engineer (Angular) <i>Softrefine Technology Pvt. Ltd.</i>	May 2025 — Present <i>Rajkot, Gujarat</i>
• Enhanced and maintained enterprise-level web applications using Angular, TypeScript, JavaScript, HTML5, and SCSS, delivering scalable, responsive, and maintainable user interfaces. • Built reusable Angular components used across three enterprise modules, reducing duplicate code and improving UI consistency. • Optimized frontend performance by reducing redundant API requests, improving the Offer Module performance by approximately 40%, while following Agile development practices, code reviews, and Git workflows.	

PROJECTS

Talent Recruit – AI-powered Recruitment & Applicant Tracking System <i>Softrefine Technology Pvt. Ltd.</i>	<i>Enterprise Product</i>
• Enhanced and maintained the Offer, Settings, and Reports modules using Angular, TypeScript, and Angular Material, delivering new business features for an enterprise recruitment platform. • Integrated 20+ RESTful APIs, including the Shine Job Platform API, streamlining job posting and improving recruiter workflows. • Optimized the Offer Module by eliminating redundant API requests, improving application performance by approximately 40% and reducing page response time. • Resolved 10+ production issues, including critical defects missed during QA testing, improving application stability and user experience. • Technologies: Angular, TypeScript, JavaScript, HTML5, SCSS, Angular Material, REST APIs, Git.	
OutreachPro – B2B Outreach & Email Automation Platform <i>Personal Full Stack Project</i>	<i>GitHub</i>
• Designed and built a full-stack B2B outreach platform using Angular, Node.js, Express.js, and Supabase for managing business contacts and automated email campaigns. • Built a scalable business directory supporting advanced filtering, pagination, bulk operations, and CSV import/export for efficient prospect management. • Engineered a custom bulk email engine using Node.js and Nodemailer with rate limiting and Server-Sent Events (SSE) for real-time campaign progress tracking. • Created a multi-step email campaign wizard with Angular Material, Signals, and RxJS, enabling personalized templates and dynamic variable injection for mass outreach. • Technologies: Angular 18+, TypeScript, Node.js, Express.js, Supabase (PostgreSQL), Angular Material, RxJS, Signals, SSE, Nodemailer.	

EDUCATION

Dr. Babasaheb Ambedkar Open University (MCA) 2025 – 2027
Kamani Science College and Prataprai Arts College (BCA) Saurashtra University 2022 – 2025

ACHIEVEMENTS

- Improved Offer Module performance by approximately 40% through frontend optimization.
- Resolved complex production issues, improving application stability and user experience.
- Developed reusable Angular components that improved maintainability and reduced development effort.
